

PARENT INFORMATION

Visiting Times

How nice that you've come to visit!

Parents, siblings and other visitors are very welcome at the Zurich children's hospital.

When children and young people have to spend time in hospital, it is important to stay in contact with family and friends. Please note that different wards in the hospital may have different visiting times.

Visiting times for parents

Parents belong with their children, that's why we don't class them as visitors.

Visiting times for parents and siblings are generally open. In agreement with nursing staff, additional individuals may be awarded open visiting rights. Please contact us in advance if you would like to speak with doctors or nursing staff during your visit.

Visiting times for other visitors

Visiting times are from 2pm to 8pm. Please clarify any specific needs you may have with nursing staff in advance and observe the rules on each of the wards. Since we may have to examine or treat the child or young person you are visiting, you may be asked to wait. Visits made by school classes or groups of friends need to be arranged with the nursing staff.

Please be considerate

Visiting times vary with age and level of care required by a patient. Please note that the number of visitors or visiting times may be limited due to the patient's medical condition, the care required or the space available. Please also note that patients need calm and more time to rest.

Please note

All visitors must be healthy and not have come into contact with anyone who has an infectious disease. If you are unable to visit in person, please make use of our other options.

The children`s hospital provides Wi-Fi.

Childcare Centre

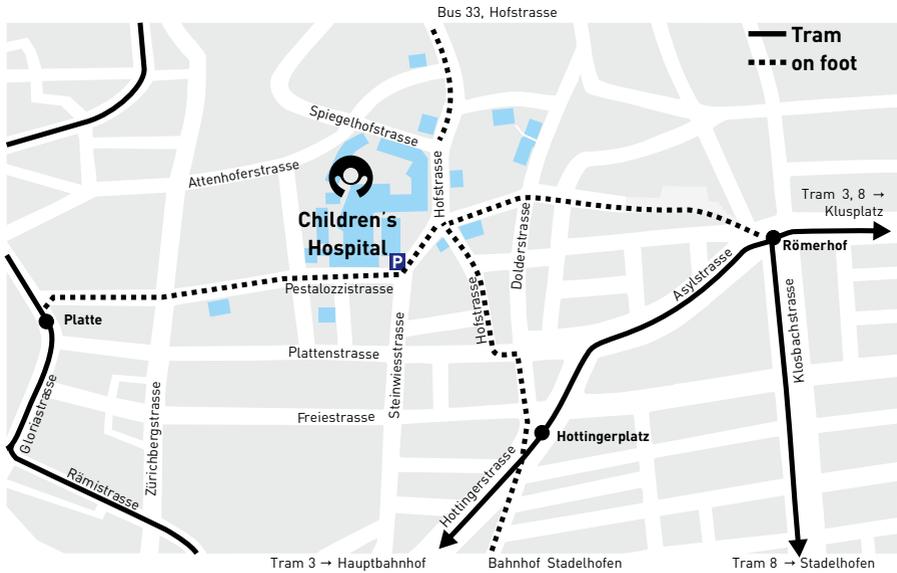

Volunteers are available between 1.30pm and 4pm from Monday to Friday to look after patients' siblings and visitors' children (from 3 years upward). Our childcare centre is located at the main entrance.

Contact

Telephone switchboard
