

SOP KD00847806

Autoclave: Load

Load liquids

Solids

- **NO WASTE!**
- Add temperature sensor (PT-100) to a reference flask with water, which corresponds to your largest vessel in size and filling volume.
- Use the tray for any liquids or solids. Do not mix liquids and solids.
- Bottles need to be **slightly open** during the autoclaving process. **Do not autoclave vessels with a closed cap.**
